# AWARE

## WE ARE ALL RESPONSIBLE FOR THE ECOLOGICAL FOOTPRINT OF THE PRODUCTS WE USE EVERYDAY.

Aware™ wants to build trust in the textile industry with an instant traceable sustainable textile that's telling the truth about its origin and impact. The next generation wants us to prove that we are reliable and trustworthy, that we walk the walk. No greenwashing, but transparency and honesty.

## THE WATER CRISIS = A HEALTH CRISIS

Nearly 1 million people die each year from water, sanitation and hygiene-related diseases which could be reduced with access to safe water or sanitation.

Every 2 minutes a child dies from a water-related disease. Access to safe water and sanitation contributes to improved health and helps prevent the spread of infectious disease. It means reduced child and maternal mortality rates. It means reduced physical injury from constant lifting and carrying heavy loads of water.

We saved  
**1.000.000**  
litres of water

With project 'IMPACT Zero Water', we reduce the use of water in the decoration of our products.

### How?

We do not clean used screens (with water), but use a new one for every screen print order.

### But, that's more expensive?!

Yes, this is more expensive for us, but the value of clean water is far more important to us. You will not pay for the extra cost involved.

### Artwork turned into works of Art

## THINKING AHEAD FOR A BETTER FUTURE

A bright and green future lies ahead of us if we all start to be more conscious.

We believe that sustainability starts with transparency. We believe that traceability and sustainability are connected.

From now onwards Swiss Peak will only carry products that aim to make an impact on the use of water where possible. We strive to do so by using recycled polyester and other materials like recycled PU. When using these recycled materials we save thousands of litres of water\*.

\*The calculated water saving indication is based on reliable LCA data as published by Textile Exchange in their Material Snapshot 2016. Water savings are based on figures when compared to conventional fibre.

# AWARE

## **AWARE™ Recycled Polyester**

Wasted PET water bottles are turned into new polyester yarns and fabrics. Sustainable yarns and fabrics made from recycled polyester, which are extracted from post-consumed plastic bottles instead of petroleum.

Not only to reduce the petroleum consumption, but also to turn-off the plastic tap. Our effort to stop plastic waste from entering the ocean.
