# Made Differently

---

Responsible game changers. Quality seekers. Stanley/Stella is a community of passionate individuals, driven by a common desire to reinvent fashion for a better world. Since our conception in 2012, we have made it our mission to produce impeccable garments, while building a transparent and sustainable fashion ecosystem.

Our thoughtful approach is reflected in the premium quality of our garments. We believe in the power of simplicity and aim to create refined pieces that we are proud to sell and wear. Each item in our collection allows the wearer to express their style, while never compromising their values and beliefs.

We also believe that there is strength in numbers, which is why we work exclusively with those who share our values. Together with our suppliers, partners, employees and customers, we form a community of like-minded individuals, driven by desire for innovation and change. Together, we are making this change happen, one ethically crafted garment at a time.

There are four core values that reflect who we are, what we stand for, and what we strive for. They have guided us since the beginning of our journey, and continue to do so as we look to the future..

## People

**Committing to community.**

Everything at Stanley/Stella is about people. It is our essence. From our suppliers and dealers to our employees and customers, we ensure everyone feels listened to and is treated with respect and dignity. We actively strive to create an ecosystem that feels positive and empowered.

## Innovation

**Embracing the way forward.**

Stanley/Stella is driven by innovation and our entrepreneurial spirit. We believe choosing the right partners empowers innovation. We are always experimenting to improve our products, our digital services, and our entire supply chain.

## Excellence

**Inspiring ambition.**

For you, as for us, every detail counts. We make no compromise when it comes to reaching for excellence. In every aspect of our business, we aim to surpass our own results. Our collections and actions should always raise the standards and change the perception of the textile industry.

## Sustainability

**Advocating for positive change.**

Sustainability is at the core of our business culture. We are committed to continuously improving how we create and operate, from the cotton field to the collection, to how we manage our waste. We always act with transparency for people, our planet, and for society.

We believe that the textile and garment industry can act in a responsible way and care about people, the planet, and society. We don't need to tell you more about the reasons why we're fully committed to sourcing organic cotton, reducing our carbon footprint or urging our suppliers to pay a living wage to their workers because we believe these points are important to you too.

We thank you for joining us on our journey, and for sharing your support, enthusiasm and ideas. If you'd like to find out more about our path to sustainability or get involved:
